DEFINING WHO YOU ARE AS A LEADER

As leaders advance in organizations, it becomes less about project management and more about people management. The current expertise of a leader increasingly requires an expansion of capacity and skills to deal with the rapid changes of organizational and global transformation. The way a leader motivates, manages and empowers others performance define who they are as leaders.

Underpinning these leadership horizons is a key message to BE HUMAN.

“

**THE WAY A LEADER
MOTIVATES,
MANAGES AND
EMPOWERS OTHERS
PERFORMANCE
DEFINE WHO THEY
ARE AS LEADERS**

”

BESPOKE & INNOVATIVE LEADERSHIP SOLUTIONS

The Conscious Choice partners with organizations and their C-suite executives on role transition, culture integration, career path acceleration and organizational transformation. The aim is to address and maximize leadership potential, enhance targeted organizational objectives, manage systemic complexity, and identify and address areas for further leadership development

These themes are addressed in 6-9 month bespoke coaching programs custom designed to suit the profile of each senior level executive and/or hi-potential candidates. Central to the design is a transformative process that encourages leaders to recognize existing patterns that are no longer relevant to their leadership. They are encouraged and supported to find their own solutions and innovate their current paradigms of reality so that they may succeed in the systems in which they work.
